Fire Extinguisher Vehicle Brackets

- Keeps fire extinguisher secure and readily accessible

Mini-Guard Extinguishers

- Supplies supplementary fire protection for some local and total flood applications
- Available in horizontal and vertical mounts and can be charged with Multipurpose Dry Chemical or Halotron
- Suitable for Class A, B & C Fires
- Not intended as a substitute for automatic sprinkler systems, fixed pre-engineered or engineered extinguishing systems and are not intended to be multiple mounted
- Fitted with a detection sprinkler head that is rated at 165° F
- Typical Uses: Spot type extinguishers act as dedicated protection of specialized equipment used in business or manufacturing processes or for specific fire risk areas such as flammable liquid storage rooms (dry chemical) and small electronic data storage rooms (Halotron)

DEFENDER SAFETY

OPTIFENSE™ DVP2 Safety Goggles

PART NO.	DESCRIPTION
OF-DVP2-06	Clear Black Frame
OF-DVP2-05	Clear Orange Frame

- **Features**
  With a soft rubber seal, and adjustable elastic band, the DVP2 provides incredible comfort.
- These goggles are D3 rated, OSHA compliant and meets ANSI Z87+ standard.. Great for laboratory, construction and manufacturing.
- The DVP2 will not fog, allowing you to use these in any settings without compromise.
- The DVP2 was designed with vision in mind. With a wide angle view, you can see clearly and reduce optical distortion. (Does not fit over prescription glasses).

6/15/24 12:52 PM

DEFENDER SAFETY

OPTIFENSE™

VS1

- Frameless protection
- Superior comfort and fit
- Meets ANSI Z87.1+

INDUSTRIAL STRENGTH PROTECTION

Protect your eyes from impact and debris. The VS1 meets the ANSI Z87.1 and EN 166 standard and is OSHA compliant. Ideal in construction sites, woodwork and any environment where the user is exposed to flying hazards.

VARIETY OF LENS OPTION

Clear, Smoked and Yellow. The VS1 lenses are offered in 3 variations, perfect for users wearing safety glasses in various environments.

ANTI SCRATCH FOR IMPROVED DURABILITY

The lenses are treated with a hard coating which gives the VS1 the ability to withstand plenty of wear and tear, letting you stay focused on the job at hand.

FIRST AID KITS

FIRST AID KITS

A wide assortment of first aid kits designed for workplaces, vehicles, home, travel, and recreation. All kits comply with ANSI type1 and type 2. Contents have been selected to treat most minor emergencies.

FAK-2 25 PERSONS

Ideal for small to medium size workplace

FAK-1 AUTO 15 PERSON

Great where safety and space are a concern

FAK-5 50 PERSONS:

Designed to support the larger jobsite or workplace

FAK-14 150 PERSONS

Designed for large construction site, workplace or school.

FAK-7 100 PERSONS (NOT SHOWN)

FIRST AID CASES

- *Manufactured from high quality lightweight materials, with durable hinges and positive catches.*
- *Weather and water-resistant. Will not rust or corrode*
- *Rounded corners provide added safety.*
- *Keeps moisture and dust out.*

DECITECH™ A Series (cap mounted)

DEFENDER SAFETY

INDUSTRIAL GRADE HEARING PROTECTION
The A series hearing protection meets the ANSI S3.19 and S12.6 rating.

PATENTED DESIGN
Engineered from the ground up, we designed the A-series to be a leader in passive hearing protection. Every feature, pain-point and use case has been thought out and integrated during development.

LIGHTWEIGHT
Less than 1lb, these hearing protectors are great for long term use.

DURABLE
Made of high quality ABS and TPE, the A series are industry tough and easy to clean.

COMPATIBLE WITH OUR H1 AND H2 SERIES SAFETY HELMETS
Easily snaps into place in ours or any standard hard hats or safety helmet.

11" SQUIDS® SWIVEL ELASTIC LOOP TOOL TAILS™

Elastic loop Tool Tails™ provide retrofit attachment points to a variety of tools and equipment using Squids® Tool Traps™

- Stretch cord surrounded by tubular nylon webbing
- Lock stitching at both ends for extra security
- Adjustable barrel lock for tool attachment
- Plated swiveling connection
- Doubles as an anchor loop for belt, harness or separate structure
- Maximum safe working capacity: 10 lbs. (4.6 kg)
- Third-party tested using a 2:1 safety factor

Includes: 3-pack

PRODUCT NO.
19765

SQUIDS® ELASTIC LOOP TOOL TAILS™

Provides retrofit attachment points up to 15 lbs. using Squids® Tool Traps™

- Stretch cord surrounded by tubular nylon webbing
- Lock stitching at both ends for extra security
- Adjustable barrel lock for tool attachment
- Fully enclosed plated O-ring for secure attachment
- SQUIDS® Elastic Loops work with Cold Shrink Trap to create a connection point on a tool
- Third-party tested using a 2:1 safety factor
- 15 lbs. (6.8 kg)

Includes: 3-pack

PRODUCT NO.
19767

SQUIDS® 3002 RETRACTABLE TOOL LANYARD WITH BELT LOOP AND LOCKING CARABINER

Retractable design limits snag hazards and keeps low profile when anchored

- Lightweight and high-strength Dyneema® cord to withstand harsh conditions
- Nylon housing with fiberglass reinforcement protects internal components and holds up to the toughest environments
- Low-profile lightweight aluminum carabiner with double-action auto self-locking gate
- Meets ANSI/ISEA 121-2018 standards

PRODUCT NO.
19302

SQUIDS® 3103 ACCESSORY KIT – DETACHABLE LOOPS

Includes 3 elastic loops that attach to the 3102 Lanyard for quick exchanges of multiple tools

- Stretch cord surrounded by tubular nylon webbing
- Lock stitching for extra security
- Max. safe working capacity – 5 lbs. (23kg)
- Compatable with 3102: Detachable Tool Lanyard

Includes: 3-pack

PRODUCT NO.
19069

SQUIDS® 3003 RETRACTABLE TOOL LANYARD – DUAL LOCKING CARABINERS, SQUIDS® 3003 RETRACTABLE TOOL LANYARD – DUAL LOCKING CARABINERS, 2 LBS.

Lightweight and hi-strength Dyneema® cord to withstand the harshest conditions

- Retractable design limits snag hazards and keeps a low profile when anchored
- Nylon housing with fiberglass reinforcement protects internal components and holds up in the toughest environments
- Third-party certified to 2 lb. maximum working capacity with a 2:1 safety factor
- Meets ANSI/ISEA 121-2018 standards

LIME SQUIDS® 3158 COIL HARD HAT LANYARD WITH CLAMP

Secures a hard hat to a worker to prevent the item from falling

- Coil design reduces lanyard length and prevents snag and tangle hazards
- Easy release clamp attaches securely to just about anything
- Maximum safe working capacity: 2 lbs

PRODUCT NO.
19159

SQUIDS® 3155 CLAMP HARD HAT LANYARD

With clamp

- Comfortable, high-stretch elastic material easily attaches to hard hats and other headwear
- Hi-Vis Lime
- Max load limit 2 lbs. (.9 kg)
- Third-party tested using 2:1 safety factor
- Hard hat not included

PRODUCT NO.
19155

SQUIDS® 3150 ELASTIC HARD HAT LANYARD WITH BUCKLE

Easily and comfortably secures a hard hat to a worker to prevent the item from falling

- Comfortably attaches to hard hats and other headwear
- Maximum safe working capacity: 2 lbs.
- Hard hat not included

REMOVABLE CONCRETE ANCHOR

022-4085

The Removable Concrete Anchor is a compact, durable anchor for repeated use in concrete. Easy installation in seconds with quick trigger removal by hand or optional assist with a simple tap. Secure protection while you work and releases quickly when you need to move on.

- Removable and reusable with reliable durability
- 360° rotating connection point for increased mobility
- Easy trigger provides quick release for repeated use
- Durable cap for optional hammer assisted removal
- For horizontal, vertical and overhead use including with HLLs
- 3/4"x 3" drilled hole required for installation
- Length: 6.5"
- Minimum Breaking Strength:
  - 5,000 lbs. (in 3,000 PSI concrete)
  - 10,000 lbs. (in 4,000 PSI or higher concrete)
- Weight Capacity ANSI 130-310 lbs., OSHA 420 lbs.
- ANSI Z359.18-2017 Type T, OSHA 1926.502, 1910.140, 1910.66

NEW PRODUCT SPOTLIGHT

QUADRANT RETRACTABLE HLL

Ultimate jobsite flexibility in a temporary 2-person HLL solution

QUADRANT RETRACTABLE HLL

023-8091

The Quadrant Retractable HLL offers jobsite flexiblity as a temporary 2-person HLL system. The versatile length up to 65' allows use in a wide range of environments with user-friendly setup plus no-hassle cable storage in protective housing.

- Set cable at any length up to 65'
- Quick, easy setup with smooth payout
- Light, compact design with collapsible crank
- O-rings included to reduce cable wear
- Efficient dual-action tension release
- Built in fall indicator for easy inspection
- Free wheel mode for practical jobsite use
- Designed for stability when tensioning
- Power drill retraction adapter included
- Minimum Breaking Strength: 5,000 lbs.
- Weight Capacity ANSI 130-310 lbs.
- OSHA 1926.502, 1910.140, 1910.66

NORTHSTAR CLASSIC

The Northstar Classic SRLs are designed to last with specialized impact resistant housing and non-corrosive components. This durable SRL offers swivel mobility and fast-acting braking for low clearance.

- Swivel attachment point offers wide range of motion
- High strength polymer housing resists impact
- Braking system activates quickly to arrest fall
- Class 1 SRL for use at or above dorsal D-ring
- Weight Capacity ANSI 130-310 lbs., OSHA 420 lbs.
- ANSI Z359.14-2021, OSHA 1910.140, 1910.66, 1926.502
- All components are Z359.12 compliant

NORTHSTAR

Our most advanced offering in the SRL category. Engineered for enhanced productivity with superior durability, features and functionality including options for leading edge and coastal environments.

NORTHSTAR CLASSIC

The dependable workhorse with an outstanding track record of reliability. Built to last, this line provides an economical solution without compromising performance, convenience or safety.

LATITUDE EDGE

The personal SRL solution for leading edge applications. These units are specifically designed for foot level tie off and allow the worker-at-height to access locations other web or non-LE units can't take them.

LATITUDE PRO

The performance driven personal SRL series that utilizes a revolutionary internal brake system to reduce work zone obstructions. Built to provide the end user with the certainty and confidence they need to work in a wide variety of jobsite conditions including arc flash and tie back options.

LATITUDE

The extremely compact and lightweight personal SRL with a design that is virtually unnoticeable on the body. This is the simple and economical replacement to a traditional lanyard offering versatility and additional safety.

LATITUDE HD

The versatile overhead and personal SRL series. Built with a durable aluminum housing and internal brake system. When the job calls for "heavy duty" these are the units you can count on.

STANLEY_SUPPLY.indd 290-291

DEWALT SRL CLASS 2 PERSONAL

The DEWALT line of Single and Twin Class 2 Personal SRL's provides users with a lightweight, versatile and rugged fall protection connection at foot-level or above. The line features 10 configurations to meet your specific applications.

FLEXIBILITY:
SRL Connector easily mounts through the pre-installed SRL channel on DEWALT D3000 harnesses, leaving the D-Ring accessible for rescue.

TOUGH:
High Impact Strength Polymer casing, reinforced corners to ensure structural integrity. Recessed labels for increased product life.

COMFORT:
Durable, soft rubber handle for sure grip.

DURABILITY:
The DEWALT Class 2 Personal SRL Energy Absorber cover is constructed of Thermoplastic polyurethane (TPU) material, which increases abrasion resistance, elasticity, and water, oil, and grease resistance. This provides a much more durable choice over other competitive fabric energy absorber covers.

EASY DOCUMENTATION:
All DEWALT SRL's come with an RFID tag for quick scanning and tracking in the DFP Safety Vault™ system.

LIFELINE MATERIAL:
Galvanized Steel cable 3/16 in. / 4.8 mm
WORKING LENGTH: 8.5 ft. (2.59 m)

SECURE:
All connectors are dual action and comply with ANSI Z359.12-2019

MAX OSHA CAPACITY* 420 lbs / 190 kg
ANSI CAPACITY 310 lbs / 140 kg
*When anchored at or above the dorsal D-Ring

HORIZONTAL LIFELINES

Get the full range of motion you need across a variety of working surfaces with our range of horizontal lifeline systems. Ideal for leading edge and low clearance conditions as well as short or long span roofing environments. Easy installation and hands-free use for multiple users.

SAFELINK SYSTEM

SafeLink cable horizontal lifeline systems offer reliable solutions for working on leading edge surfaces as well as other applications where horizontal work and low clearance fall hazards exist.

CABLE SYSTEM

These 2 person cable horizontal lifeline systems are built for versatility. Offered with 2 different in-line energy absorber types for various work conditions.

DOUBLE BRAID ROPE SYSTEM

These 4-person rope horizontal lifeline systems use lightweight energy absorbing double braided rope, an aluminum tensioner and swivel connection point. The ideal solution for multiple workers covering multiple applications.

KERNMANTLE ROPE SYSTEM

These 2-person rope horizontal lifeline systems are built with a steel tensioner and abrasion resistant kernmantle rope. Combined with easy storage and transport, it's the perfect solution for shorter roofing environments or larger span jobs.

STANLEY_SUPPLY.indd 292-293

D-Ring Extender 18 in. - Loop

Part #: LE18134L

18 in. 1-3/4" web single leg D-ring extender, loop on one end and large D-ring on opposite end. Meets or Exceeds ANSI Z359.12-20

D-Ring Extender 18 in. - Cable

Part #: LE18134LE

18in. D-ring extender with 0.25inch aircraft steel cable. With one forged snap hook & one O ring. Red vinyl coated Lifeline cable tested on a 0.005 radius sharpened steel edge. Meets or exceeds ANSI Z359.14-2012.

D-Ring Extender 18 in.

Part #: LE18134

18 in. D-ring extender, 3/4" snap hook on one end and large D-ring on opposite end. Meets or Exceeds ANSI Z359.12-2009.

Positioning Device Rebar

Part #: A00004

Rebar chain positioning device, one 2-1/4" swivel rebar hook on top and two 3/4" snap hooks on opposite ends. Meets or Exceeds ANSI Z359.3-2007.

Tool Lanyards

T2201 T2203

Part #: T2201 & T2203

Tool Lanyard with Screw Gate Carabiner or Twist Lock Carabiner. 15 lbs. tool rated. Meets or exceeds the ANSI/ISEA 121-2018 standard.

Twin SRD Connector

Part #: SRL169

DUAL LEG SRD CONVERTER - a Carabiner with SRD Plastic Connector. Gate breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Twin SRD Steel Connector

Part #: SRL170

Dual Leg SRD Converter. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds Ansi Z359.12-2009.

Hook Carabiner .67"

Part #: C111

Steel twist lock, 5/8" gate opening, Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Hook Carabiner .84"

Part #: C113

Steel twist lock, 13/16" gate opening, Gate Strength 3600 lbs. Min breaking strength 5000 Exceeds ANSI Z359.12-2009.

6/15/24 12:53 PM

4' Adjustable SRL Ladder Anchor System

022-12146

- Adjustable captive eye for sternal or dorsal connection
- Versatile use with all SRLs
- 4' post with top anchor extension bracket
- Durable powder coated stainless steel head
- Installs on fixed ladders only
- All mounting hardware included
- Minimum Breaking Strength: 3,600 lbs.
- Weight Capacity ANSI 130-310 lbs., OSHA 420 lbs.
- OSHA 1926.502, 1910.140

Adjustable SRL Ladder Anchor System Options

PART NUMBER	DESCRIPTION	LENGTH
022-12146	4' Adjustable SRL Ladder Anchor System	4 ft.
022-12147	6' Adjustable SRL Ladder Anchor System	6 ft.

STANLEY_SUPPLY.indd 294-295

Hook Carabiner 1.97"

Part #: C134

Yellow chromate finish, forged steel twist lock gate , 1-15/16" gate opening. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Hook Rebar Scaffold

Part#: S00140

Rebar scaffold hook. Alloy Steel. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Rope Grab 5/8" Diameter

Part #: C0850

5/8" Large Bail Yellow Chromate Finish Rope Grab. Meets or Exceeds ANSI Z359.15-2014.

Vertical Co-Polymer Rope Lifeline

Part#: V1003202 50' 100'

Variable Length Lifeline 5/8" co-polymer rope, 3/4" hook on one end. Meets or Exceeds ANSI Z359.15-2014.

Termination Plate

Part#: RETP

This termination plate can be used with both Kernmantle rope between 7/16"and 3/4" 11mm-19mm) and 5/8" to 3/4" (16mm-19mm) three strand rope.

Anchor Sliding Beamer

Part #: A3145000

This anchor connector is designed to easily glide along the beam while trailing the worker. Adjustable from 3"-12" with a minimum flange thickness of 1/4". Meets or Exceeds ANSI Z359.18-2017, OSHA 1926.502.

Anchor Sliding Super Beamer

Part #: A12305000

Super Sliding Beam Anchor, 12" – 30" flange adjustable. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Parapet Anchor

Part #: A00002

Parapet Anchor. Galvanized Steel. 2.36" – 14.17" parapet range. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Anchor Door Jamb

Part #: A00003

Door Jamb Anchor, Aluminum construction. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Grip-Rite Concrete Curing Blankets

Grip-Rite Extreme Concrete Curing Blankets® are a woven poly tarpaulin envelope with internal insulation secured all around by a patented reinforced webbing design. Extreme blankets are designed for use in cold weather concreting applications as an insulated cover to maintain the heat of hydration during the early stages of concrete curing. Grip-Rite Extreme Curing Blankets feature a button less design that eliminates the need for plastic buttons to hold the insulation in place. This means reduced catching and tearing, reduced moisture penetration, and less disturbance of the wet concrete surface. A Grip-Rite exclusive, **Extreme Series Curring Blanket Patent 10,077,565.**
