Ramset

TrakFast™ Auto Fastening System

1/2" – 1-1/2" Pin Capacity

The Ramset TF1200 Trakfast tool is a great tool not only for shooting drywall track and z-strip to concrete, block and steel, but longer pins are available for shooting on furring strips and waterproofing membrane. Add the optional lathing disc probe and it makes a great lathing tool.

- SPEED Three to five times faster than powder tools. 42-pin magazine reduces loading time
- EASY TO USE Tool automatically resets piston. No recoil, tool absorbs shock resulting in less operator fatigue
- NO LICENSING REQUIRED Unlike powder-actuated tools, no licensing is needed
- NO CHANGING LOADS TrakFast uses a fuel cell, not a load. No need to inventory different colored loads
- NARROW NOSE AND PROFILE Allows tool to reach inside deep leg track (1-5/8" wide x 2" high)
- 2 Year Warranty (6 months on wearable parts)

Specifications:

- Maximum Capacity: 42 pins
- Maximum cycles/second: 2
- Fuel cell: 1000 shots
- Battery (charged): 3000 shots
- Dimensions: 17"L x 15-1/2"H
- Weight: 8.375 lb.

Includes: (2) batteries, dual charger, and carrying case.

Description	Application	Qty. Per Box
1" Pin with Gold Domed Washer & Plastic Flute	For maximum holding strength in hard concrete & hard steel	500

Ramset® Insulfast T4I-F Insulation Gas Fastening Tool

Four times faster than the traditional stick pin installation method. No need to pre-measure fastener location, wait for adhesive to dry, or push washers on pins and trim length. Fasten the insulation directly to concrete, hollow block, exterior stud, and wood. The system can be used year-round: unlike stick pins you won't be restricted by cold temperatures or wet surfaces. Safer than gun-powder-driven fastening because less recoil, no spent powders casings, and no license required. Safer and faster than screw and washer fasteners. Delivers less torque to the installer's wrist and elbow. Works with insulation up to 6" thick. **Includes: (2) batteries, battery charger, carrying case and safety glasses.**

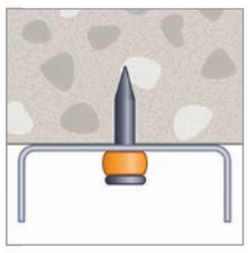
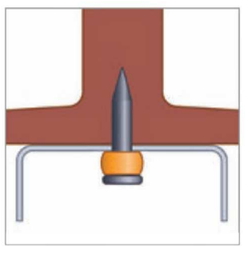
FEATURES

T4MAG Increase Your Range with Overhead Power

The Power of the T4MAG allows you to consistently shoot where no other gas tool has gone before. The .125 diameter pin is specifically engineered to work in the toughest concrete and steel where other pins cannot perform. The T4MAG system delivers power that rivals other gas and powder systems.



Settling aggregate is the biggest reason for overhead pin failure.



With the T4's 1/2" steel pin you can even shoot into the web of steel.

RAMSET T4MAG

Ramset T4MAG Fastening System

Ramset's T4MAG is the best-balanced tool available and is easy to use overhead. With 30% more power to work in the toughest concrete, this tool will drive your job site productivity and result in lower user fatigue and downtime. The Power of the T4MAG allows you to consistently shoot where no other gas tool has gone before. The .125 diameter pin is specifically engineered to work in the toughest concrete and steel where other pins cannot perform. The new T4MAG system delivers power that rivals other gas and powder systems. **Includes: (2) batteries, battery charger, safety glasses, and carry case.**

GypFast Cordless Coil Nailer

Fully Automatic Cordless Gas Fastening System for attaching exterior sheathing to light gauge steel framing. Fully automatic system with 150-nail capacity is 3-5 times faster than screws. Fast set-up and tear down; insert battery, fuel cell and nail coil. Easy to use with self-contained power source eliminates need for extension cord, hoses and compressors. Aggressive, patented nail shank design provides high pullout performance. Contoured bugle head style provides high pullover (wind) resistance. Long life Climacoat™ finish is 10 times more corrosion resistant than electro-zinc plating. Applications include: exterior gypsum sheathing to steel framing, plywood and OSB sheathing/flooring, fiber cement panel attachment, blocking, exterior walls, windows/door bucks, specialty exterior sheathing attachment, woven wire mesh or expanded metal lath to steel framing. Includes: GypFast Cordless Coil Nailer, (2) batteries, battery charger, carrying case and safety glasses.

Trak-It® C5

Gas Fastening System

BASE MATERIAL

Concrete, Lightweight Concrete, Hollow and Grouted CMU, Masonry & Steel

The fuel injected Trak-It C5 cordless concrete pin nailer is the lightest and smallest tool in its class, resulting in less operator fatigue and a better overall ergonomic feel. C5 has a high power output at 105 Joules, which allows for shooting into even the hardest concrete. It is able to shoot pins .102, .108, .120 and .145 diameter pins up to 1-1/2" in length. Safety training and licencing not required to use this system.

Viper .27 Caliber Strip Powder Tool

- Specifically designed for overhead applications
- Automatic load advance each time the Viper is fired
- Automatic piston return
- Heavy-duty buffer system prevents front end damage caused by piston overdrive
- Completely redesigned open-ended muzzle keeps tool cleaner longer
- Simplified barrel retention collar
- No tools are required for assembly or disassembly
- 27 caliber, 10-strip loads: 2 (Brown), 3 (Green), 4 (Yellow), 5 (Red)
- 5 year warranty

U-Hank Tie Wire - 18 Gauge

18 gauge x 48". 25 lb. per box

PART NO.	DESCRIPTION
42204	U-Hank Tie Wire 18 gauge

Ramset

Ceiling Clip Assemblies

Pin preassembled to a 14 gauge angle clip.
Shank Diameter: .145"
Head Diameter: .300. 1000 per box.

PART NO.	DESCRIPTION	PIN LENGTH
SDC100	45° Ceiling Clip Assemblies	1"
SDC125*	45° Ceiling Clip Assemblies	1-1/4"

*Available in 100-Pack (part no. SDC125C)

Ramset

Powerpoint Pins with Ceiling Clips

Pin preassembled to a 14 gauge angle clip.
Shank Diameter: .150" (SPC114 = .150/.180)
Head Diameter: .300. 1000 per box.

PART NO.	DESCRIPTION	PIN LENGTH
SPC78	90° Powerpoint Pin w/ Ceiling Clip	7/8"
SPC114	90° Powerpoint Pin w/ Ceiling Clip	1-1/4"

Ramset

Hybrid Threaded Rod Hanger

- For suspended ceilings, piping and other applications using 1/4" or 3/8" threaded rod
- Use with Ramset Tools: 721, Autofast, D60, SA270, Rocket/D45A, Cobra, Viper, RS22/HD22, R150/T3SS
- 1" Premium PowerPoint pin preassembled to a 16 ga. threaded rod hanger
- **Shank Diameter:** .125" / .150"
- **Head Diameter:** .300"
- 50 per box

PART NO.	DESCRIPTION
14TRHSS10	1/4" Rod Hanger
38TRHSS10	3/8" Rod Hanger

Ramset

Hybrid One Hole Conduit Strap

- For attaching conduit or armored cable to concrete
- Use With Ramset Tools: 721, Autofast, D60, SA270, Rocket/D45A, Cobra, Viper, RS22/HD22, R150/T3SS
- 1" Premium PowerPoint pin preassembled to an 18 ga. conduit strap
- **Shank Diameter:** .125" / .150"
- **Head Diameter:** .300"
- 100 per box

PART NO.	DESCRIPTION
38HSSS10	3/8" Hole Strap
34HSSS10	3/4" Hole Strap

Ramset

J-Clip®

- Strong, reliable attachment of pre-tied hanger wire
- Use for open web bar joists or purlins
- Each clip fits 1/16" - 1/4" flanges

PART NO.
L1701

Ramset

J-Pur®

- Fast, easy attachment of pre-tied hanger wire from Z-Purling
- Disengages from J-Master Tool after Installation
- Two magnetic strips attached to J-Master tool make installation easy

PART NO.
L1801

RA54

Durable, Reliable, Powerful, Automatic

Ramset's most powerful tool with increased speed, less downtime and improved reliability for maximized productivity

The Ramset RA54 was specifically designed for the commercial framer for heavy-duty interior & exterior applications. The RA54's combination of high power and durability make it perfect for these applications:

- Driving 1-1/4" embedment for perimeter track
- Fastening track & clips to structural steel
- Track to hard concrete

FEATURES

- **Part Number: RA54**
- .27 Caliber Strip Tool
- Automatic Piston Return
- Power Adjust Dial
- 3" Pin Capacity
- 3 Year Warranty
- .27 Caliber Strip Loads: 3 (Green), 4 (Yellow), 5 (Red) 6 (Purple)
- Weight: 7.25 lbs.
- Length: 19"
- Muzzle Bushing O.D.: 7/8"

RAMSET FASTENERS

PowerPoint Pins

Standard powder actuated pins fasten inconsistently into steel. Frequently, steel is just too hard for conventional pins. Since the hardness of steel varies, steel is also inconsistent. Ramset's exclusive PowerPoint Pins solve this problem by providing easier penetration into hard steel and hard concrete. PowerPoint Pins work well in steel hardness up to 90Rb, making this an excellent, cost effective alternative to drilling and tapping. 100 pins per box. Shank diameter: .150.

Fits Ramset Models
