Power-Stud+® SD1

Wedge Expansion Stud Anchors - Carbon Steel Body & Expansion Clip

The Power-Stud+ SD1 anchor is a fully threaded, torque-controlled, wedge expansion anchor which is designed for consistent performance in cracked and uncracked concrete. Suitable base materials include normal-weight concrete, structural sand-lightweight concrete and concrete over steel deck The anchor is manufactured with a zinc plated carbon steel body and expansion clip. Nut and washer are included.

General Applications And Uses:

- Structural connections, i.e., bean and column anchorage
- Safety related attachments
- Interior applications / low level corrosion environment
- Tension zone applications, i.e., cable trays and strut, pipe supports, fire sprinklers
- Seismic and wind loading
