SAFETY NETTING

Flame Retardant Safety Netting

- **PRODUCT FEATURES:**
-
- **Fire Retardant**
- **Hole Openings Aprox. 1/4″**
- **UV Treated, Knitted Polyethylene Threads With Reinforced Border**
- **Will Not Unravel When Cut**
- **Flexible In Severe Temperature**
- **Meets OSHA Requirements**

PART NO.	DESCRIPTION
SN-20010	5' 6" x 150'

PVC-COATED DEBRIS NETTING

SBN-427 debris netting is strong, fire retardant and lightweight. This netting is made from PVC-coated polyester and has reinforced borders for added strength. Available in high visibility fluorescent orange with openings measuring approximately 5/32″ x 5/32″. SBN-427 meets NYC Local Law #61 and OSHA requirements, and stays flexible in cold weather.

D12/STRONG WRAP: FIRE-RETARDANT SCAFFOLD WRAP REINFORCED POLY SHEETING & SCAFFOLD WRAP

Available Sizes
8′6″ x 100′ (w/ 3 bands)*
13′ x 100′ (w/ 5 bands)*

Fire-Retardant: Meets NFPA 701 Method II & Boston Fire Marshal Test BFD IX-1
Premium String Reinforced Poly
Base Material:
3×3 Weave Per Sq. Inch 2400 Denier
250 Grams Per Sq. Meter
Color: Milky White
Reinforced Bands:
14×14 Weave Per Sq. Inch
1200 Denier
190 Grams Per Sq. Meter
Pre-Punched 15mm Eyelets For Easy Installation
Color: Grey
UV-Treated & Highly Rip Resistant
Superior Performance in Cold & Extreme Weather Conditions

Fire Retardant Netting

- Knitted polyethylene threads with reinforced border
- Stays flexible in cold weather
- Fire retardant, high-visibility fluorescent orange
- Certified incinerable for use in nuclear plants
- NFR-SH: Polyethylene knitted mesh fire retardant debris netting in black, mesh style and meets NYC Local law 61 and OSHA specs
- NFR: Polyethylene knitted mesh debris netting are fire retardant, high-visibility fluorescent orange, with 1/4" holes, certified incinerable for use in nuclear plants, lightweight and economical and meets NYC Local law 61 and OSHA specs
