METACAULK® FIRESTOP SEALANTS

RECTORSEAL

Cover Guard™

Fire-Rated Gasket for Electrical Boxes

Features and Benefits:

- Good sound insulator
- Easy to install
- Highly intumescent
- STC rating 54
- **Test Standards:** Complies to UL required Accelerated Aging and High Humidity Testing

Applications:

- A single component fire-rated gasket for use with electrical boxes to comply with the "24 inch rule"
- Fits under the cover plate and does not take up volume

PART NO.	DESCRIPTION	QTY
66270	Double receptacle	50
66272	Single receptacle	50
66274	Double switch	50
66276	Single switch	50
66265	Single decor	50
66266	Double decor	50

Box Guard™

Fire-Rated Pad for Electrical Boxes

Features and Benefits:

- Adheres to back of electrical box
- Non-conductive
- Highly intumescent
- STC rating 53
- **Test Standards:** Complies to UL required Accelerated Aging and High Humidity Testing

Applications:

- One component fire-rated for use in electrical boxes
- It is inserted on the inside back wall of an 66366 Single box 50 electrical box prior to wiring

PART NO.	DESCRIPTION	QTY
66366	Single box	50
66367	Double box	50
66369	4-11/16" x 4-11/16"	50

Putty Pads

Fire-Rated Pad for Electrical Boxes

Features and Benefits:

- Applied by hand
- No asbestos fillers
- Pads - STC rating 60
- For interior use
- Adheres to all common building surfaces
- **Test Standards:** ASTM E814 (UL 1479)

Applications:

- Putty sticks are used to seal around penetrating items through fire-rated walls, floors and within blank openings
- Putty pads are used to maintain the hourly rating of fire-rated walls containing electrical metal outlet boxes and to reduce sound transmission
- Hand moldable with no curing

PART NO.	DESCRIPTION	QTY
66345	18 cu./in. - stick	12
66340	6" x 7" x 1/8" thick	20
66335	7" x 7" x 1/8" thick	20
